Experience level: associate

Generated: 2026-04-28 10:40:50

Mobin Azimipناه is an AI Engineer with dual M.Sc. degrees in electrical engineering and computer science. He currently consults on AI infrastructure at Hermes Corporate and previously led an automated RAG system at Canon, achieving 90% coverage. Skilled in LLM fine-tuning, multi-agent systems, and full-stack AI development, he leverages Python, FastAPI, AWS, and Docker. With a top 1% national exam rank and publications in fault detection, he combines academic excellence with hands-on expertise in building scalable machine learning applications.
